PROFILE:

Some people learn by reading. I learn by building. Every project I've worked on started with a problem I wanted to solve and ended with something deployed and functional. I've spent countless hours in hackathons, debugging sessions, and coding contests, and each one has made me sharper. Now I'm ready to bring that same drive into a team that takes what they build seriously.

SKILLS:

- Programming Languages – Python, Java (Basics)
- Frontend – HTML, CSS, JavaScript, ReactJS, Vite, Chart.js
- Backend – Django, Flask, REST APIs, JWT Authentication
- Databases – MySQL, PostgreSQL
- AI & Data Science – NumPy, Pandas, Matplotlib, OpenCV, Google Gemini API, Power BI, RAG, LLM Integration
- Core Concepts – Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA)
- Tools & Platforms – Git, GitHub, VS Code, Netlify, Vercel, Render
- Soft Skills – Collaboration, Adaptability, Quick Learner, Creative Problem Solver

PROJECTS:

Cognivue AI – LLM-Powered Cognitive Interview Assistant: (AI + Full Stack)

[GitHub -Link](#)

- AI-powered interview practice platform using Google Gemini, providing personalized questions, real-time feedback scoring, resume analysis, and role-based interviews.
- Built with a React (Vite) frontend, Django backend REST APIs, secure Google OAuth 2.0 authentication, PostgreSQL, and structured LLM output validation using Pydantic.

Gpay reward application: (Full Stack)

[GitHub -Link](#)

- Web app enabling users to register, log in, redeem reward codes, track usage, and prevent misuse with intelligent copy-limit rules and automated suspension for suspicious activity.
- Built using Flask backend with MySQL, session-based access control, automatic data cleanup, and a responsive UI using HTML, CSS, and JavaScript.

EDUCATION:

B.Tech in Artificial Intelligence and Data Science

2022 - 2026

KIT - Kalaigarkarananidhi Institute of Technology, Coimbatore, Current CGPA : 8 / 10

Higher Secondary

2019 - 2021

Government Higher Secondary School, Tiruppur , Completed with 85.33%

Secondary Education

2018 - 2019

ST.Joseph's Higher Secondary School, Pudukkottai, Completed with 79.6%

EXPERIENCE:

Data Science Internship - Profeena Infotech - Pollachi - (Jul 2024)

- Performed data cleaning, preprocessing, and exploratory analysis on real-world datasets, contributing directly to a live recommendation system built for tracking and predicting user behavior

Python With DataBase In-plant - Gateway Software Solutions - Gandhipuram - (Jan 2024)

- Worked with real database schemas to design and execute CRUD operations using Python and MySQL, building backend logic for data retrieval, insertion, and updates

COMPETITIVE PROGRAMMING:

- Hackathons – 4× 24-hour Hackathons (KIT), 2× 30-hour Hackathons (KIT)
- Coding Contests – Secured 29th rank out of 480 in GUVI Webkita, 40+ contests on CodeChef
- Problem Solving – 750+ problems solved on LearnLogicify, 100+ problems solved on LeetCode
- AI Platforms – Hands-on experience with 20+ AI platforms

CERTIFICATES:

- Infosys – Python Foundation, Web Development (May 2024), Artificial Intelligence Foundation
- Coursera – Foundation of Data Science, Software Engineering, Professional Data Engineer
- Altair – Machine Learning Master Certification
